

5 piece : Blues, Classic Rock, Harmonies, Originals, Covers

# ONEWAY-UP

The genesis of this band took place in 2005 when a diverse group of veteran musicians from Northwest Indiana and Chicago were brought together by a common bond, love of music. They are currently based right over the Chicago line in Hobart, Indiana and have appeared at clubs and festivals throughout the mid-west.

Begin with the soul of R&B and rock; add some spices from the blues; blend with some funk, some jazz & southern rock; mix in a little Middle-Eastern & Celtic flavoring; stir with bold, animated percussive beats; then combine all of this with the song-writing lyrics of their composers. This synthesis of originality is a brief description of the unique diversity and artistic values found in the music of **ONEWAY-UP** and the spirit that they bring to bear on their musical interpretation of the works of other composers.

They have been artistically inspired, at times, by the renderings of the likes of Eric Clapton, Stevie Ray Vaughan, Carlos Santana, the Allman Brothers, Loreena McKennitt, Wes Montgomery, The Doors, Pearl Jam, Rush, Mozart, and the Beatles to name a few. Their music and lyrics are expressions, personally & collectively, of their experiences, observations & hopes.

**ONEWAY-UP's** music has been aired on *MS-Blues* internet radio (three #1 songs & two in the top 20); *OurStage.com* (two songs in the top 10); and on indie radio stations in the L.A., Georgia, Atlanta, Portland, and Texas markets. They are also being aired on *HOOAH Radio* (a military radio station) as well as radio stations in France, Germany and Australia. During the baseball season they can be found, from time to time, at the *U.S. Steel Yard* (Gary, IN) performing as the official band of the *Gary SouthShore RailCats* minor league team.
